Learning
Communities
Learn together with US

In a learning community, you'll learn with friends and thrive at UNCG!

Learning Communities at UNCG feature integrated learning.

All communities include two to three courses that are integrated for deeper learning. This means that learning community students will be enrolled in shared courses that integrate assignments across multiple courses. For the student, you begin to see how courses and disciplines are interwoven across programs and majors.

Global Connections, Local Impacts Learning Community

The Global Connections, Local Impacts Learning Community (GCLI) allows students to understand how globalization impacts the environment, governments, cultures, and the daily lives of people in places around the world. Students will have the opportunity to explore the impact of globalization, international travel, and expand their understanding and appreciation of global diversity. This community is open to first-year students of all majors.

Required Courses:

Fall GEO 103: Introduction to Earth Science
GEO 104: World Regional Geography
ENV 100: Introduction to Environmental Studies
ISL 101: Connections, Collaborations, and Inquiry
